Wellness Platform

Size:

105,000 Square Feet

Construction Completion:

August 2016

IWP partnered with Carle Health and McLean County Orthopedics to develop the Center for Integrated Wellness, a \$35 million state-of-the-art health and wellness facility designed to deliver customized care, connected medical services, preventative health programs and sports performance training to the greater Bloomington, IL, community.

The center brings together multiple health and wellness services into a 105,000 square foot facility that consists of a medically-based fitness center, sports performance institute, imaging center, orthopedic center of excellence, physician offices, and community education area.
